2023-10-29 nanoledger is a plain text accounting data entry app for android

data entry app for plain text accounting. nanoledger is a data entry app for plain text accounting. it supports the ledger and hledger syntax.

you can view all transactions in a file, and easily add a new one. while adding, auto-completion is supported for payee, note and account names. only ledger/hledger-like syntax is supported. view your transactions and quickly add new ones, with autocomplete on fields where it makes sense.
